

# Úhly vedlejší a vrcholové

Vypočítej velikosti vyznačených úhlů:

1.

$$\alpha = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$
$$\beta = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$
$$\gamma = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$

2.

$$\delta = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$
$$\epsilon = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$
$$\phi = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$

3.

$$\omega = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$

4.

$$\sigma = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$

5.

$$\alpha = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$
$$\beta = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$
$$\gamma = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$

6.

$$\delta = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$
$$\epsilon = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$
$$\phi = \boxed{\phantom{00}}^\circ \boxed{\phantom{00}}'$$
